

A New Era and a New Excitement at Teksan

Teksan started its journey in 1994 in a small workshop. Mr. Abdülkadir TEKSAN and Mr. Özdemir ATA founded Teksan and together with Mr. Hüseyin Özcan BAŞEĞMEZLER, they led the company as first generation until now. Over the past 30 years, Teksan became the first company in Türkiye to launch domestic cogeneration and trigeneration systems as well as the first locally produced hybrid generator set. Teksan has grown year over year to become a trusted brand in many major international projects. Today, the company is represented in more than 140 countries. This success is the result of the collective efforts of everyone involved, a signal of Teksan's evolution.

Now, Teksan is announcing an important change following the 2025 General Assembly. On June 4th 2025, Mr Özdemir ATA stepped down from his role as Chairman of the Board with a immediate effect, the Board are delighted to announce the appointment of Mr Burak BAŞEĞMEZLER as the new Chairman of the Board. Also announced, Mr Hüseyin Özcan BAŞEĞMEZLER has elected to retire and with an immediate effect, our newly elected Vice Chairman of the Board is announced as Ms Elif ATA ERDURAN.

With the handover of our "Reliable Energy" journey to the second generation, our new Management Board is as follows:

Burak BAŞEĞMEZLER – Chairman of the Board

Elif Ata ERDURAN – Vice Chairman of the Board

Yunus TEKSAN – Board Member

Ebru ATA TUNCER – Board Member

Başak KÖSEBAY – Board Member

Süleyman Yalçın KOZANLI – Board Member

Teksan will continue to focus on continuous improvement, aiming better quality in its products and services. Teksan remain committed together with its employees and stakeholders to reach these goals while growing in the energy solutions industry. Teksan will build a stronger, more innovative, and more successful future with its engineering infrastructure and global partnerships.

Teksan thanks the previous Management Board for their valuable service and wishes great success to the new Management Board.
